

Film Winding Rewinding Machine For Batch Coding

Product Description:

Manufacturing high-quality Film Winding Rewinding Machine for Batch Coding through inkjet printer or contact coding machine on roll to roll with maximum high speed. Also, it is easy to operate, independent and portable which ensure zero maintenance up to 10 years. We are pioneer in these product.

Special Features :

- | Cantilever design-balancing body for easy loading and unloading of parent / rewound reel
- | Hydraulic Web guide system
- | Tension control by auto or manual hand brake
- | Provision for incorporating Inkjet Printing System.
- | It is great substitute to online coding / batching operation
- | Compact Design with Variable speed drive
- | Heavy duty structure for vibration free operation

A.C Drive : 2 Hp

A.C Motor: 2 Hp

Web width: 100 to 1500 MM

Max Speed: 150 mpm

RW/UW core diameter 76mm

Line Speed Control Automatic

Net Wight 1000kg
